DOORWIN DOOR COLOR OPTIONS

Our doors are available in a range of standard colour and woodgrain finishes, but with our state of the art paint plant, we can now provide a wide range of specialist colours and a colour matching service.

STANDARD COLOURS

PREMIUM COLOURS

With our high performance paint technology, we can provide a wider palette of door colours including options for customers looking to match PVC-u colour foiled frames.

BESPOKE COLOURS

Our mixing system allows a choice of colour options from the popular RAL colour range.

Door colours shown in this brochure should be used for guidance only, as the limitations in photographic and printing processes may mean that colours of products vary from those illustrated.

THERMALLY EFFICIENT GLASS DECORATION WITH ENHANCED PERFORMANCE

Modern Composite doors are a combination of great looks and high performance, with strength, low maintenance and probably, most important of all, superb energy efficiency.

As energy costs continue to rise, choosing a door that keeps in the heat and keeps out the cold is now more important than ever - and composite doors are the most energy efficient on the market today. The performance of the door is achieved by a combination of the latest technologies which include the glass elements.

The decorative glass designs in this catalogue combine great aesthetics with high performance, by using Pilkington low-e glass combined with argon gas in the cavity to reduce the amount of heat loss through the glazed area. All our units are also sealed using warm edge spacer technologies to reduce the heat transfer at the edges of the glass.

GLAZING STYLES

BRASS/ZINC ART

Stunning visual effect with multiple glass textures and bevels

All units are triple glazed for easy cleaning and extra security

It is not possible to produce matching sidelights or toplights

Changes to the glass types used or came colours is not possible

CRYSTAL ART

Encapsulated inside a double glazed unit for easy cleaning

Stunning bevel effects which beautifully refract light

High levels of privacy with textured glass effects and prismatic bevel effects

It is not possible to produce matching sidelights or toplights

FUSION/ETCH ART

Contemporary glass designs using fused glass or clear bevel elements

Dual Glazed construction so you can touch the glass elements

Colour changes available to match or complement the door colour

It is not possible to produce matching sidelights or toplights

RESIN ART

Fine lines and hand-painting allow for very intricate designs

Dual glazed construction so you can touch the glass elements

It is possible to produce matching sidelights or toplights

Large range of textured backing glass is available for added privacy

OVERLAY ART

Dual glazed construction so you can touch the glass elements

Colour changes available to match or complement the door colour

It is possible to produce matching sidelights or toplights

Large range of textured backing glass is available for added privacy

venetian integrated blind

Introduce a touch of creative innovation to your home with this stunning option for your kitchen and back doors.

Control light and privacy instantly when you select an integrated door blind. These blinds are cleverly encapsulated within the insulated glass cavity of the door to provide a zero maintenance blind. They can be easily raised and lowered using the unobtrusive fingertip control on the edge of the frame. So say goodbye to tiresome dusting and hello to a beautifully controlled environment.

COLOURED AND TEXTURED GLASS OPTION

GLASS COLOUR OPTIONS

With the following glass designs, you can co-ordinate the colour of the decorative glass design to complement your choice of door colour.

TEXTURED GLASS

With our Designer Bevel, Diamonds, Fleur, Sunburst and Georgian Bar designs, we recommend that a textured backing glass is used to add an extra level of privacy. You can also specify any of these textured backing glasses for use with our sidelight and toplight frames.
